A. EXTENDED WARRANTY - GENERAL PROVISIONS.

During the selected coverage period, John Deere Construction & Forestry Company (Worldwide Construction & Forestry Division, a division of John Deere Canada ULC, in Canada) ("John Deere") will repair or replace, at its option, covered components (either factory installed components or genuine John Deere replacements installed by an authorized John Deere dealer) of the product identified on the first page of this document that are defective in material or workmanship, subject to the terms and conditions set forth on both pages of this document. Such repair or replacement will be free of charge for parts and labor, except as otherwise stated below.

Under each coverage option, the Extended Warranty period begins when the product's corresponding Standard Warranty ends, and continues (unless terminated under Section E below) until the expiration selected on the face of this document. The coverage period ends after the specified number of months or when the machine's hour meter reaches the specified hour limitation, whichever occurs first.

Extended Warranty is available only through authorized John Deere dealers for John Deere products, and may be purchased at any time before the product's Standard warranty, or Extended Warranty expires. Extended Warranty is not effective unless and until (1) a properly completed application for coverage is submitted to John Deere, (2) and the coverage charge is paid. Once Extended Warranty becomes effective, John Deere's obligations hereunder extend only to the applicant identified on the first page of this document, unless remaining coverage is transferred to a subsequent purchaser of this product in accordance with Section H below.

B. FLUID ANALYSIS REQUIREMENT AND MAINTENANCE.

Fluid Analysis: As a condition of coverage, the following Extended Warranty contracts (sold on or after 9 June 2008) will require fluid analysis:

- Compact Excavators, Compact Track Loaders, Skid Steers, Compact Loaders, Scraper Tractors and Pull-Type Scrapers are excluded from this requirement.

Customer is responsible for completing hydraulic/hydrostatic oil analysis at 500 hour intervals for specific models and hours of coverage. If sample frequency is not maintained, and repairs occur, customer will be responsible for 20% of the repair cost. An oil sample using John Deere specifications must be submitted on or before the effective date of the Extended Warranty contract.

Maintenance: The owner (lessee, for leased products), at his or her own expense, must maintain the product in accordance with the product's Operator's manual and, upon request, provide adequate records verifying maintenance.

L SERIES SKIDDERS, L SERIES WHEELED FELLER BUNCHERS, M SERIES TRACKED FELLER BUNCHERS: Additional Fluid Analysis & Maintenance may be required. As a condition to receive a Powertrain Ultimate Uptime Extended Warranty and Preventative Maintenance contract, the following will be required:

- Submit oil samples through ALS after every service interval, regardless of who performs the service (customer or dealer).
