INSPECTION CERTIFICATE

CERTIFICATION OF: Knuckle Picker
MAKE: Hiab
MODEL: 077ES-4 CLX
SERIAL NUMBER: BL077CL00436
UNIT NUMBER: T-PK-02
CAPACITY: 2800 kg @ 2.2m
OWNER: Sundown Oilfield Services Ltd.

Rees NDT Inspection Services 2008 Ltd. performed a VISUAL AND NON-DESTRUCTIVE TESTING inspection on the above mentioned KNUCKLE PICKER. All observations have been recorded and are disclosed in the complete documentation for Rees NDT Work Order #224008. The scope of this certificate is limited to the inspection of the item's structural condition at the time of inspection and does not imply a review of the equipment's design or its associated capacity rating. The capacity noted above reflects the original equipment manufacturer's maximum capacity rating and may be reduced by operating conditions, regulatory requirements and the use of auxillary equipment that has a lower capacity rating.

The undersigned Engineer reviewed all the inspection reports and has issued this certificate after all required repairs (if any) were completed. In the undersigned Engineer's opinion, the KNUCKLE PICKER may be returned to service and is safe to use within the original manufacturer's specifications. The equipment owner is obliged to supply the OEM's operating instructions with the equipment and maintain the OEM's identification and capacity markings. If OEM information cannot be obtained, certified replacements must be obtained from a Professional Engineer.

This certification covers the above mentioned unit for a period of 1 YEAR from the date of inspection, or until the unit is damaged by handling, transportation or operation.

Comments

Rees NDT Inspection Services 2008 Ltd. performed a Visual, Wet Black/White Magnetic Particle and Dry Magnetic Particle inspection on the above mentioned Stability Test of Mobile Crane.
 Above equipment was cleaned of dirt, oil and grease prior to inspection.
 See attached pictures.

NDT Inspection Results:

1. Deficiencies were rectified at the time of inspection.
2. No relevant indications or damage was noted at the time of re-inspection.

Upon review and approval by our professional engineer (P.Eng) the inspected equipment will be recommended for certification.
