

Fibo Intercon B1200CC Portable Concrete Batch Plant

Overview

Offered for sale is a **Fibo Intercon B1200CC Portable Concrete Batch Plant**, originally purchased in **2016** and used strictly as a **demo unit**. This machine has seen **very limited use** and remains in excellent condition. The B1200CC meets the Ready Mix Concrete of Ontario standards for the production of certified concrete (documentation available).

- **Less than 500 operating hours**
- **Less than 500 cubic metres of concrete produced**
- **Stored and maintained carefully**
- **Fully documented and owned free and clear**

This unit represents a **rare opportunity** to acquire a near-new, fully featured mobile batch plant at a significant savings over new replacement cost.

Key Specifications

- **Output Capacity:** 10–18 m³ per hour
- **Configuration:** Trailer-mounted, twin-axle bogie design
- **Mobility:** Designed for rapid deployment and relocation
- **Mixer:** Integrated agitator pan mixer
- **Batching:** Computer-controlled batching system with recipe storage
- **Accuracy:** Load cells for high-accuracy weighing

Included Equipment & Features

This is a **complete, ready-to-work package**, not a stripped base unit.

Included with the batch plant:

- **Integrated twin aggregate hoppers** (2 aggregate types; expandable)
- **Integrated water supply**
- **Powder dosing system**
- **Mini cement powder silo**
- **Conveyor belt system** for concrete offloading
- **Two additive pumps and flow meter**
- **Moisture probe** for fine aggregates
- **Pre-weighing of cement**
- **4 vibrators**
- **On board high pressure wash system**
- **Toolbox**
- **Full set of wear parts** (approx. \$3,000 value)
- **Safety sensor kit**

Condition

- **Demo condition**
- **Clean, straight, and well-maintained**
- **Stored off-season; winterized as appropriate**

- Not currently operational due to winter conditions, **but video documentation is available showing the plant operating and batching concrete**

Ideal Applications

This plant is particularly well-suited for:

- Small to mid-scale concrete producers
- Precast operations
- Remote or temporary job sites
- Infrastructure, utility, and repair projects
- Contractors needing fast setup and mobility without sacrificing batching accuracy

Why This Unit?

- Hard-to-find **low-hour demo unit**
- Fully equipped – no chasing add-ons
- Proven Fibo Intercon design
- Immediate availability
- Clear ownership and full documentation
