Equipment: Dunlite 260 kVA Diesel Generator

Date: 9/1/2026

Location: Deniliquin, NSW

The above-mentioned Dunlite 260 kVA generator was inspected and test run under normal operating conditions.

All pre-start safety checks were completed, testing of voltages and power output. The generator started correctly, ran smoothly, and produced stable voltage and frequency within manufacturer specifications.

No abnormal noises, vibrations, leaks, or fault indications were observed during operation. All engine, alternator, and control systems functioned as intended.

Conclusion:

At the time of inspection and testing, the Dunlite 260 kVA generator was found to be in good working order and fit for service.

Tested by: Jack Tyndall

Company: J & D Tyndall Electrical
