Description	Unit Price	Total
Drescorp - Broken flex plate Vehicle arrived to workshop with complaint of broken flex plate. Inspected vehicle and confirmed broken flex plates. Moved vehicle into workshop and removed transmission from vehicle. Discovered centre of flex plates torn. Front cover of torque converter worn from failure. Spigot adaptor worn – requires machining. Lock up damper worn and scored. Turbine seal ring groove worn. All other transmission components appear in serviceable condition.	14,579.00	14,579.00

Repair transmission replacing worn and damaged components with all seals and gaskets required.  
Machine spigot adaptor as required.  
Fit new flex plates to engine.  
Refit transmission to vehicle.  
Flush transmission cooling system.  
Fill transmission with Valvoline Syngard 668.  
Clear codes, reset shifts and test drive vehicle for shift quality.

Note: Recommend engine be inspected for possible misfire issue.
