MAKE: Flagro	MODEL: FV8 FVO-400	YEAR:	KMS:
Frostheater serial # OV400-7011			

MATERIALS

[illegible]

COMMENTS: - ~~First~~ heater was not starting. would hesitate and then shut down.

- took front cover off panel to check reset switch connections.
- found a bunch of loose connections under reset switch.
- tightened connections, and straightened bent blades on connectors. Reinstalled reset switch.
- reinstalled front cover and ~~first~~ ^{first} heater fired up.
- tested operation.
- drained excess fuel from heat exchanger.

- returned next morning and heater will not fire. Cont. walling
try - but won't light up: checked fuel cond. u.i and
kerosene cond. fuel - well: rotten / watery and is "eggy"

- Drained fuel out of tank.
- Put fresh diesel into tank.
- Unit cycled many times and then finally fired once diesel and left over - ~~gasoline~~ mixed.
