

2006

Ford F350 SuperDuty Lariat 6L

VIN 1FTWW31P96EA39915

mileage 886,757 Kms

new engine @ 673,000 Kms

so 213,000 Km on it

*Crate engine
*Not Rebuilt

Truck has always had regular (5-10km) maintenance done on engine and transmission maintenance every Fall

oil 164L always have used

^{of} Rotella T 10W30

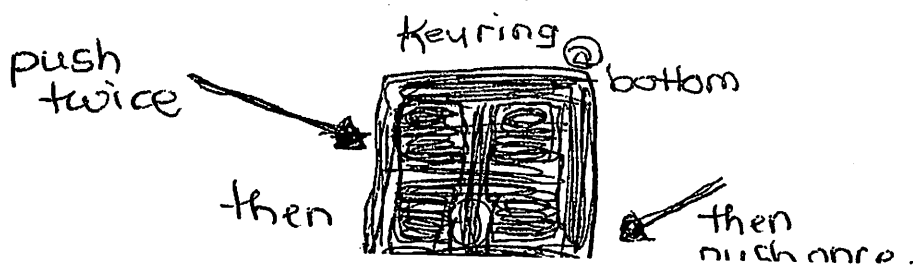

Winter or Summer truck has always had a 15 minute warmup upon starting and a 5 minute cool down when turning off. Always plugged in @ -10 and down colder has oil pan heater as well.

Fuel additive always used

Batteries new in 2022 as well as power steering pump

Brand new multi signal switch and harness just installed

Remote starter

Slip tank gravity feed

200 Litre I left lever on all the time and would reset odometer so I knew how much was in there. Will code P0460 sometimes saying Fuel Tank level Indicator Circuit malfunction but its the slip tank that causes that. It thinks its overfull.

Drivers seat heater does not work
Passenger side does

And back passenger window doesn't open

Brand new multi function signal switch with wiring harness installed
August 2023

This truck has never pulled a trailer since new engine went in.
ball hitch in box for pulling a trailer with mamby hitch
