****CHOPPER BEARING MOUNT****

CUSTO COMPLAINT

****CHOPPER BEARING MOUNT****

CAUSE:

..

CORRECTION:

Ran the combine
 The whole chopper bracket was broke off and violently shaking
 Removed the belts and low speed pulley
 Replaced the bearings and used a new shift collar and locking piece
 Disassembled the tailings drive
 Removed the right side chopper bearing and bracket
 Removed the center shaft once I got it all apart
 The left side bracket that holds the bearing was all cracked out so we had a new one to replace it with
 But the frame that it bolts to on the combine was cracked and the one corner was broke right off
 I drilled the ends of the cracks out so they did not spread
 Then I ground out the cracks
 Ground down the corner piece that was broke off
 Tacked the corner back on and made sure it lined up

I hereby authorize the above work to be done along with the use of any necessary materials. I agree that Redhead Equipment ("RE") may access and utilize any electronic data stored or available on the machine including remote access, for the purpose of diagnosing, repairing, or servicing the machine or its components. RE will not be responsible for any costs incurred resulting from software updates and/or diagnostics to a modified system. RE and its employees may operate the above machine for the purposes of inspection, testing or delivery at my sole risk. I agree to pay cash prior to redelivery of the machine or on terms satisfactory to RE until paid in full. Registration of a commercial lien is acknowledged on the above machine to secure the amount of repairs thereto. It is understood that RE assumes no responsibility for loss or damage by theft or fire to any machine placed with them for storage, sale, repair or while field testing. Special order and electrical parts are not returnable. Any stocking parts returned after 30 days will be subject to a 15% restocking charge. RE cannot accept any part returns on weekends or after hours. Part returns are not accepted after one year from the original invoice date. All part returns require the original invoice and packaging. No title passes on purchased machines until the applicable invoice is paid in full. 2% per month will be charged on all overdue accounts (24% per annum). Parts & Service are net 30 days. Whole goods and rental payments are due on delivery.

Welded the cracks and the corner bracket
Then I went to bolt up the new bearing bracket the stitch welds down the whole side of the frame were cracked and I found more other cracks
Removed the bracket
Ground down the welds and cracks
Welded up the rest of the broke out pieces
Installed the bracket again
Installed the center shaft and then the chopper bearings
Installed the tailings side pulleys and slip clutch
Installed the high speed pulley and then went I went to Align the belt the tensioner pulleys and the brackets were cracked out
And basically falling off
Removed the drive pulley off the pto gear box
Removed the bracket and tensioners
Welded it up
Installed back on to the combine
Installed the low speed pulley and belts
Finished installing the brackets and zip ties and stuff
Ran the combine and temp checked the bearings
Ran a few times to break in the bearings and make sure the vibration was fixed
