**M & N REPAIR LTD.**

February 11, 2026

Auctioneer note:

This truck has been thoroughly inspected and overhauled. Both axles have completely new brake components including brake chambers, bushings, seals, slack adjusters, cams, drums and shoes. The rear axle is equipped with new drive tires. Both windshields have been replaced, as well as a brand new fifth wheel. Also features new batteries and cables along with a new starter and starter cable. Other new repairs include front suspension bushings, all shocks, hood bushings, a new driver's door latch and striker pin, and the air suspension on the driver's seat. This truck is greased, topped up on all fluids and has a fresh safety, meaning it's ready for commercial or farm use. Anyone looking for a premium unit should not pass this truck by.

Sincerely

M & N Repair Ltd.  
Mike Nahorney
