CONDITION OVERVIEW

This 2010 Cat D7E is a diesel-electric hybrid crawler dozer designed for improved fuel efficiency and productivity. It is equipped with an enclosed cab with air conditioning, positive air shutoff, sweeps, a 169 in wide-angle blade with dual tilt, and a 4-cylinder multi-shank ripper. Track shoes are 26 in single-grouser.

The machine has been well maintained and is ready for work. It has been fully serviced and thoroughly inspected with no known issues. The only reason for sale is insufficient current demand to justify keeping it in the fleet.
