EZRA INDUSTRIAL CORP.

2005 Stamford 70 kW Dual Generator Set

ID / Stock #	16268401
Year	2005
Location	Ritchie Bros Grande Prairie, AB

CONDITION OVERVIEW

This 2005 Stamford 70 kW skid-mounted dual generator set is configured as a 40 ft camp support package. It features dual John Deere 4045TF250B 4-cylinder 4.5 L diesel engines paired with Stamford generators, rated at 87.5 kVA / 70 kW three-phase (208 V), with 240 V and 120 V receptacles available.

Both engines have just been fully serviced with engine oil and filters changed. Overall good condition noted. The unit is US EPA labeled and CARB compliant. It includes dual propane tanks and a diesel fuel tank, all housed in a heavy-duty skid-mounted enclosure approximately 40 ft long by 9 ft 6 in wide.

The unit is suitable for remote camp, construction, or industrial power support applications requiring redundant generation capacity.
