To: Ritchie Bros. Auctioneers – Yard & Inspection Team **Subject:** Clean & Purge Certification
– Unit 10008 (Sulphabind Service Unit)

Date: [Insert Date]

Re: Certification of Clean, Purged, and Non-Contaminated Status **Equipment:** Unit 10008
Previous Product: Sulphabind **Last Operational Use:** 2019

To Whom It May Concern,

I, **Alan Bruce Morison**, sole director of **H2S Solutions Ltd.**, hereby certify that **Unit 10008** has been fully **cleaned, purged, and rendered free of hazardous or regulated substances** prior to delivery to Ritchie Bros. Auctioneers.

The unit's last contained product was **Sulphabind**, used in standard field operations. The equipment was **removed from service in 2019** and has not been used since that time.

A full clean-and-purge procedure has been completed, including:

- Removal of all residual Sulphabind product
- Internal and external wash-down
- Purging of tanks, lines, hoses, and fittings
- Inspection confirming no remaining contamination
- Verification that the unit poses **no environmental, chemical, or safety risk** to RB Auction staff, transport contractors, or buyers

Based on this process, **Unit 10008 is safe for handling, storage, transport, and sale**, and does not contain any hazardous materials requiring special declaration.

If additional information or documentation is required, I will provide it promptly.

Signed,

Alan Bruce Morison Director -- H2S Solutions Ltd. Grande Prairie, Alberta 780 518 0552
