

# WILDCAT DIESEL

## Mechanical Inspection Report

<b>Owner</b>	Shane
<b>Vehicle</b>	2007 Mack Fleetliner
<b>Vehicle Type</b>	Heavy Commercial Truck
<b>Date of Inspection</b>	22 March 2026
<b>Inspected By</b>	Wildcat Diesel

---

### Overall Condition

We at Wildcat Diesel have been carrying out regular maintenance on this vehicle for the past 4 years and can confirm that Shane's 2007 Mack Fleetliner is in exceptional condition for its age. Shane has consistently kept on top of all servicing and repairs, and the truck is well above average for a vehicle of this vintage.

### Engine & Drivetrain

The engine starts well, runs smoothly, and shows no signs of leaks or abnormal wear. Oil and fluid levels are correct and well maintained. The gearbox and drivetrain are in good working order with no issues found.

### Chassis, Suspension & Brakes

The chassis is structurally sound with no cracking or significant corrosion. Suspension components are in good condition. The braking system is fully operational with no defects noted.

### Cab & Electricals

The cab is in good condition. Lights, instruments, and electrical systems are all functioning correctly. Tyres have adequate tread with no signs of abnormal wear or damage.

---

### Summary

Having serviced this truck regularly over the past 4 years, we can confidently say it is in excellent mechanical condition. This is a direct result of Shane's commitment to keeping up with maintenance and addressing repairs promptly. There are no mechanical concerns at this time.
